**Success Class Manager Software**

Success Higher Educational Institute – Ganemulla.

Setup Instructions.

You can choose the installation mode in here.

- XAMPP is the database that the Success Class Manager works with. If you are using XAMPP software please remove it. You can also install the XAMPP software through the Success Class Manager software, so you can back up the database you previously made using the XAMPP software and restore them to the newly installed XAMPP.

- Or in the already installed XAMPP,
  - Make sure the username is "root" and the password is "blank".
  - Also make sure you have XAMPP installed in the C:\xampp directory.

    (Important)

If you want to add the shortcut to the desktop check the check box and go with next.

Now Install and meet the Success Class Manager Software.
